CERTIFICATES

Graphic Design Masterclass

Udemy - December 2021

Project Management for beginners

PARP Academy - February 2022

Design thinking

PARP Academy - February 2022

I have acquired the skills I have thanks to study, work and determination. I study, constantly develop, expand my competences and work in a restaurant on weekends. It's hard to judge myself, but I am creative, hard-working and conscientious, which can be confirmed by the people who collaborated with me. As a teenager, I worked in many places, so I am not afraid of challenges and always try to do my best.

Thanks to the fact that I deal with photography and graphics, I pay attention to details and develop my creativity. I am always myself and I love working with people.
