PROFESSIONAL EXPERIENCE

Project Engineer, CYRKULACJA SP. Z O.O., Warsaw **March 2023 — September 2025**

- Developed simplified financial models and project offers exceeding 1M+ PLN, identifying potential cost savings
- Monitored and analyzed project budgets, designing reporting dashboards in Excel and PowerBI that improved cost transparency
- Negotiated with subcontractors and suppliers, achieving savings while maintaining quality, which improved project profitability
- Strengthened client relationships by preparing tailored business proposals and ensuring smooth project delivery
- Organized project documentation and contracts, ensuring compliance and timely approvals
- Supported project manager in coordinating site works and cross-functional subcontractor teams

Brand Ambassador, WARBUD S.A. **February 2023 — September 2024**

- Promoted the company among students and graduates, leading to multiple internship placements
- Organized construction site visits for 80+ students, improving awareness of career paths in engineering
- Built relationships with university organizations and supported recruitment initiatives

Site Engineer (Internship), WARBUD S.A., Warsaw **June 2022 — August 2022**

- Shadowed senior engineers in cost reviews and compliance checks, applying analytical skills to monitor progress, resolve discrepancies, and recommend enhancements to construction strategies
- Contributed to project planning and documentation, including drafting reports, submittals, and procurement matrices, fostering data-driven insights for cost optimization and process improvements
- Collaborated with project managers to execute daily tasks, identify operational bottlenecks, and implement solutions for complex site challenges, enhancing overall project efficiency and resource allocation

EDUCATION

MSc in Finance and Accounting (part-time) **October 2025 — 2027**

University of Warsaw, Warsaw

MSc in Environmental Engineering **March 2023 — January 2025**

Warsaw University of Life Science, Warsaw

BSc in Environmental Engineering **October 2019 — February 2023**

Warsaw University of Life Science, Warsaw

TECHNICAL SKILLS

English (C2)	Polish (C2)	Analytical Thinking	Project Management
Excel Power User	Python	SQL	PowerBI

PROJECTS

Project Cost Reporting (personal learning project)

- Organized project cost and schedule data in a small SQL database.
- Used Python to clean and prepare the data for reporting.
- Built simple dashboards in Power BI to present key figures and reduce manual Excel work.
- Practiced integrating SQL and Python with Power BI to develop repeatable reporting workflows

Cost Optimization in Sanitary Installations Projects (CYRKULACJA project)

- Analyzed investment budgets and identified savings of 5-10%
- Developed cost-tracking Excel dashboards improving budget transparency
- Negotiated with subcontractors, achieving reduced unit costs
- Prepared structured cost reports for management, ensuring consistent tracking across projects
